

# GO FROM MAILBOX TO INBOX WITH **PAPERLESS BILLING**

## **CHOOSE PAPERLESS BILLING**

U.S. Postal Service (USPS) customers are experiencing slow mail delivery across the country, but especially in rural areas of the country. Even first class mail is being delayed. Now's the time to switch to Wheat State's paperless eBilling, which means you'll receive your statements via email rather than USPS. View your eBill and make payments from the convenience of your secured on-line account. Saves time. Saves money! eBill is right on time!

With paperless billing, you'll have one less bill in your mailbox each month and less clutter on your kitchen counter. Plus, you'll help us use less paper and save some trees.
