

CLASSWORK. HOMEWORK. **NETWORK.**

OUR FIBER NETWORK HELPS LOCAL STUDENTS LEARN

Wheat State Technologies is a huge supporter of education. We're proud to connect local schools and homes to our fiber network, so students have access to the reliable, high-speed internet needed to optimize learning —whether in the classroom or in the living room. WST has NEW plan savings and FREE upgrades to choose from. Fiber internet will enhance your lifestyle and ensure you have the bandwidth needed for work, education, home security, telehealth, streaming tv and movies, gaming and all the ways your family connects.

Let's make it a great school year! Check out the other side for details.

WST KNOWS CLASSWORK. HOMEWORK. NETWORK. EXPERT HELP WITH TECHNOLOGY

** In the plans referenced above, the first number represents the download speed and the second number represents the upload speed of the package in Megabits per second. The difference between download and upload is the direction the digital data is moving. Download speed refers to the rate data is transferred from the Internet to your device. Upload speed is the rate data is transferred from your device to the Internet. Plan speeds are subject to specific internet content, number of simultaneous connections, the square footage and layout of the home. Speed may vary by location. ** The plans listed above are data only, no phone line required. Internet bundled with discounted phone services are obsolete. If you have a voice plan with Internet your price may vary from above. Contact our office with any questions you may have.*
